

Vertical Style - Dish Bottom Out

The "DBF" series features wide-mouth caps manufactured by Neptune. These caps utilize a square section "O" ring seal and will **close easily by hand**. Advantages of this series are demountable leg extensions and a **full bottom drain**. Optional Filter Bag Kit may be added.

"DBFC" models include a built-in support and mounting for a cartridge filter (order cartridge separately).

See page 3 for filter specifications.
